Market Update

As we head into the depths of winter and another round of school holidays, stock levels are low.

The continued volatility of the stock market and rising oil prices will see continued volatility.

Well established, well located family homes within 7-10km of the city still command strong interest. We are still finding (particularly) in the upper-end of the market that many properties are achieving strong results by selling privately.

Sales Director Robert Vickers-Willis and fellow Director Tim Derham have recently returned from overseas meeting with existing clients and expats keen to invest into the Melbourne property market.
